Based on Todd's comments we have no problems with the proposed abandonment of the end of Anders Road.

Rocky,

I take a few minutes to look over this map and I see no problems with this. This is property that was seperated by the 4-lane part of Hwy 25 connector. I think the roadway that is in question only leads into a field used for tree farming. If you drive out Anders Rd you will notice that the state "or its contractors" put a culdisac as they were paving; at the location of the requested change.

P.S. Hope you and your family have a great Christmas!!!
