

REQUEST FOR BOARD ACTION

HENDERSON COUNTY BOARD OF COMMISSIONERS

MEETING DATE: October 17, 2007

SUBJECT: Maintenance of Effort Fund Allocation

ATTACHMENTS: Yes
1.) Western Highlands Network Recommendations
2.) Application Matrix

SUMMARY OF REQUEST:

Henderson County has \$529,224 to allocate for the provision of mental health services in the county for the period between November 1, 2007 and October 31, 2008. Maintenance of Effort funding applications were received by the county in early October, and provided to Western Highlands Local Management Entity (LME) for review and recommendations. The attached matrix outlines which agencies filed applications, what services they provide, how many citizens they will impact and the amount of funding requested.

Arthur Carder, CEO of Western Highlands LME, has also reviewed this information and provided the following recommendations with respect to funding. Mr. Carder will be in attendance at the meeting to discuss those recommendations.

<i>Appalachian Counseling</i>	\$90,000
<i>Community Health Network</i>	\$75,000 (\$50,000 current + \$25,000 future)
<i>Henderson County Health Department</i>	\$43,280
<i>Mainstay</i>	\$25,000
<i>Parkway Behavioral Health</i>	\$20,000
<i>Sixth Avenue Psychiatric Rehabilitation</i>	\$90,000
<i>The Free Clinics</i>	<u>\$45,000</u>
<i>Total</i>	\$388,280

At the Board of Commissioners' meeting held August 14, 2007, the Board approved a full time Mental Health Therapist position to be paid for with Maintenance of Effort funds. \$43,280 in Maintenance of Effort funds are requested to fund that position.

BOARD ACTION REQUESTED:

The Board is requested to take input on the proposals, requests and recommendations at today's meeting. The Board is further requested to defer action any action at this time, and to take action on the allocations at a future meeting.

Suggested Motion:

No motion suggested.

Henderson County MOE Recommendations From Western Highlands Network

Parkway Behavioral Health

Requesting- \$40,000

The requested service (MCM) under this proposal should be self-sufficient after grant funding provided by WHN last fiscal year and an additional \$31,000 that will be funded for this fiscal year. Given the extent of the volume of service they intend to deliver during the next fiscal year I recommend partially funding their request.

Recommend- **\$20,000**

Mainstay Inc.

Requesting- \$25,000

Mainstay has always provided a valuable resource to Henderson County. What they propose to do makes a lot of sense. However, I would want to see what other funding sources they are attempting to access. The services they propose could be funded by both Medicaid and IPRS if they choose to enter into a contract with WHN. I don't think it is a good use of County dollars to supplant providers not accessing other available funding sources. I would recommend funding their request for this fiscal year and require them to contract with WHN and bill Medicaid services to support ongoing service delivery.

Recommend- **\$25,000**

Sixth Avenue Psychiatric Rehabilitation Partners, Inc.

Requesting- \$175,000

Community Support, CST, and ACTT should all be self sustaining services with some proposed travel expenses built into the rate. The PSR service on the other hand, is a valuable service to their community which provides a great deal of transportation to consumers living in rural areas throughout Henderson and Transylvania counties. To maintain the PSR program (maintenance, travel, operating expenses) I would recommend funding a partial request.

Recommend- **\$90,000**

Appalachian Counseling

Requesting- \$175,000

Appalachian Counseling historically has not provided a large volume of services to IPRS consumers in Henderson County. Since the closure of New Vistas they have become the main core provider in Henderson County. They also provide the bulk of psychiatric services to Henderson County consumers. Based on their proposal to expand service delivery, beginning to offer detox services, and to expand psychiatric service delivery I would recommend funding the proposal for an initial amount and if they demonstrate that they are providing services to IPRS consumers and have expanded services you could fund the balance after 5 months.

Recommend- **\$90,000**

Partnership for Health

Requesting- \$75,000 (\$50,000 for current + \$25,000 for future)

This proposal is currently meeting a need that is not being addressed by some of our service providers. This project is tied to other major efforts to maximize limited resources and is needed to assure stability to our system. I would recommend funding as requested.

Recommend-\$50,000 to CHN + \$25,000 to remain in reserve for future transfer to The Free Clinic.

Total- **\$75,000**

The Free Clinic

Requesting- \$45,000

This has been a valuable resource to the Henderson community since the closure of New Vistas. It is critical that this service be linked with the WHN Access Department so that appointments could be made with other core providers within the area. I recommend ongoing funding.

Recommend- **\$45,000**

Henderson County Health Department

Requested & Allocated- **\$43,280**

Total Available-	\$529,224	
Allocated-	\$43,280	Health Department
Recommended-	\$20,000	Parkway Behavioral Health
	\$25,000	Mainstay Inc.
	\$90,000	Sixth Avenue
	\$90,000	Appalachian Counseling
	\$75,000	Partnership for Health (CHN)
	<u>\$45,000</u>	The Free Clinic
Total	\$ 388,230	

Available for future allocation- \$140,944

*Recommend that the County leave some funds in reserve for future needs and possibly to contribute to the ongoing costs of CSU and other Issues. Also all contracts for MOE funds must indicate compliance with HB 1473, Section 10.49.(ff)

Maintenance of Effort Funding Requests

November 1, 2007 – October 31, 2008
