

REQUEST FOR BOARD ACTION
HENDERSON COUNTY
BOARD OF COMMISSIONERS

MEETING DATE: 7 October 2013
SUBJECT: Levi monitoring agreement
PRESENTER: Marcus Jones

SUMMARY OF REQUEST:

As a part of the County's duty as the former operator of one or more of the now-closed landfills, the County must monitor groundwater in the area of such landfills for the potential presence of potential presence of volatile organic compounds in groundwater which may flow from such landfills (even if the particular landfill was not operated by the County). Jack and Bessie Levi own real property within the watershed of such a landfill.

It is proposed that in return for allowing the County to fulfill its monitoring agreement, that the County provide a connection for public water to Mr. and Mrs. Levi, including replacement of a failing culvert on the Levi property under which the line must run.

County staff will be present and prepared if requested to give further information on this matter.

BOARD ACTION REQUESTED:

Authorize agreement with Mr. and Mrs. Levi.

If the Board is so inclined, the following motion is suggested:

I move that the Board authorize the agreement with Jack and Bessie Levi outlined in this agenda item, and further direct and authorize staff to enter into such agreements as are necessary to provide Mr. and Mrs. Levi with a connection to public water, including related matters, to their property lying within the watershed of a landfill with which the County is charged with monitoring.
