#### **SUMMARY OF REQUEST:**

The Department of Social Services is providing informational updates to the Board of Commissioners regarding various Social Services issues. The May 2017 update, provided by DSS Board Member Dr. Jennifer Hensley, provides an informational presentation regarding the on-going Family Centered Treatment program conducted through DSS in partnership with SPARC and the Family Centered Treatment Foundation.

#### **BOARD ACTION REQUESTED:**

No Board Action necessary, this item is for informational purposes only.

#### **SUGGESTED MOTION:**

*No motion suggested.*

# Family Centered Treatment

*A collaboration between Henderson County Department of Social Services, The SPARC Foundation and Family Centered Treatment Foundation*

## Origins of Family Centered Treatment (FCT)

- Comprehensive and intensive home-based model that has been developed over 20 years
- Continuously refined through research, experience, and feedback from clients.

Although developed from applied success, some of the critical components that provide the theoretical framework are recognizable as derivatives of major models of evidenced based practice such as:

**Eco-Structural Family Therapy**

and

**Emotionally Focused Therapy**

# The Five Pillars of Family Centered Treatment

- ▶ Treat Families with Dignity and Respect
- ▶ Honor the Function of Behavior
- ▶ Treatment that is Relevant and Useful
- ▶ Internalization over Compliance
- ▶ Power of Giving

## *Engaging the family* *We must connect before we can correct*

- ▶ *Privilege; not a right to be in their home*
- ▶ *Treatment and change is their choice*
- ▶ *Guarantees*
- ▶ *Respect and dignity integral to the process*
- ▶ *This process is done "with" them; not "to" or "for" them*

## What is meant by "sustainable change"?

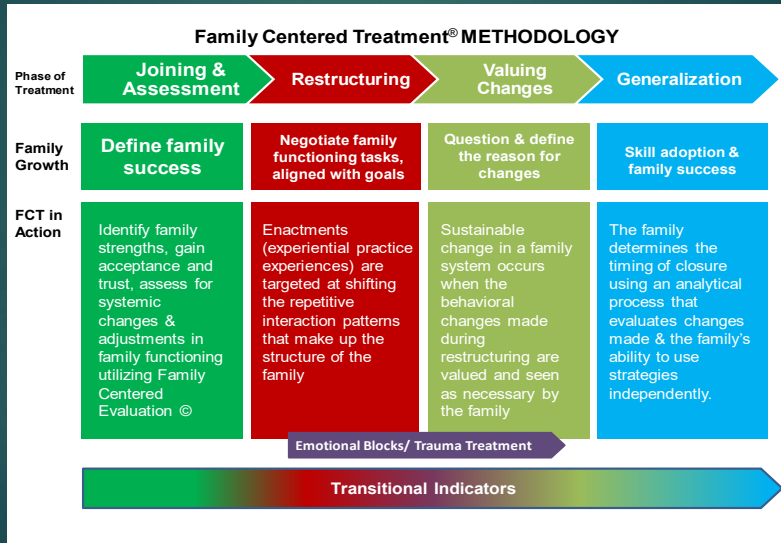

When achieved, sustainable change helps a family move from making conscious "efforts to change" to establishing a new, accepted "way of living".

## How does it work?

- ▶ With the whole family *as defined by the family*
- ▶ Meet in *their home* on *days* of the week and *times* of day that are *convenient for the family*.
- ▶ Session schedules get the clinician involved during the most troublesome and difficult times and as they occur.
- ▶ Provides **24/7** on call crisis support for the family with their known clinical staff. (not a universal on-call system)
- ▶ Multiple hour sessions several times per week become the norm for creating change.
- ▶ Provides opportunities for the family to *practice* functioning differently. These weekly "enactments" are integral to the process. (not just talk therapy)

# Clinical Model Basics

## FCT Site Implementation

*Successful replication in over 50 sites across 7 states*

Recognized as an EBP by the California Evidence Based Clearinghouse for Child Welfare

Included in SAMHSA's National Registry of Evidence-based Programs and Practices (NREPP)

# Henderson County Implementation

- ▶ WNC's only site for FCT is Henderson County
- ▶ Monthly leadership meeting includes DSS leadership, SPARC Foundation Clinicians & Director, FCT Foundation Program Consultation Director
- ▶ Case reviews, FCT education and training, accountability, prioritization
- ▶ Cross-training for FCT Clinicians and Social Workers
- ▶ Joint sessions with families, FCT clinician and Social workers
- ▶ Strategic Planning to increase capacity for Henderson County, particularly with Substance abusing parents.

# National Data

## Outcomes for Family Centered Treatment Services

### SUCCESSFUL ENGAGEMENT

**96%**

Of all clients/families referred have more than five direct contacts with the FCT clinician

### KEEPING FAMILIES TOGETHER

**90%**

Of the clients/families who were referred to FCT, 90% reported that they were able to maintain contact with their family members during the treatment process

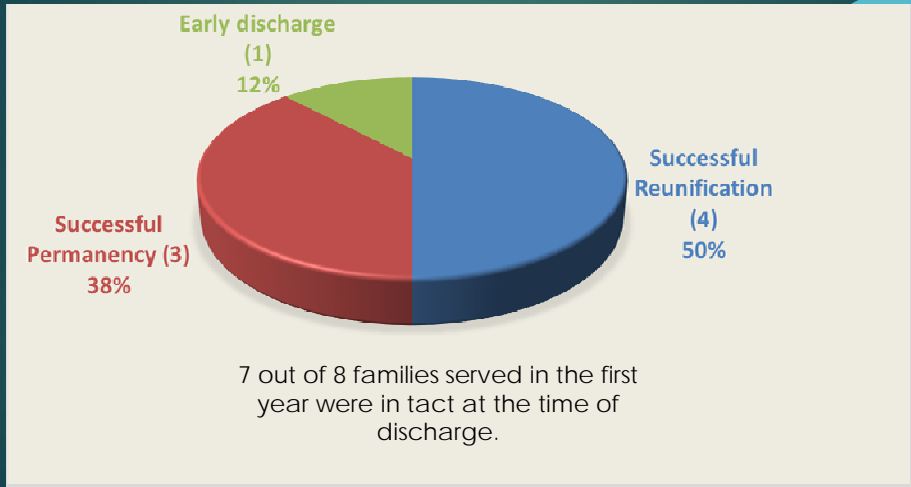

### TREATMENT GOALS

**91%**

Of families report positive progress toward their primary treatment goal
