Mr. McGrady noted he has stayed in constant contact with Henderson County since he served as a commissioner, and a decision regarding Henderson County was never made by him without first talking to Henderson County. He has valued working with everyone and received some solid advice from County Manager Steve Wyatt. The NCDOT appointment allows him to engage but stay at home while covering road projects and the Ecusta Trail. Mr. McGrady has served five terms as a representative with much success and will still be available if the County needs him. He thanked the Board for helping with his success.

Chairman Pro-Tempore Michael Edney told Mr. McGrady that he was an inspiration to him. Mr. McGrady is a great leader and worked well for the community.

Commissioner Andreotta thanked Mr. McGrady for being consistent with great demeanor, and always being an asset and resource for Henderson County.

Set a Public Hearing Regarding Potential Application for 2020 Community Development Block Grants Coronavirus (CDBG-CV) Program

The NC Department of Commerce requires public hearings as part of its Community Development Block Grant (CDBG-CV) Program. The program provides for a variety of activities including, but not limited to, activities that prepare, prevent, or respond to the health and economic impacts of COVID-19.

Staff proposes the County apply for CDBG-CV funds. The application period for these funds was opened on September 1, 2020 after being announced at the end of August. The Department of Commerce will award

funds on a first-come, first-served basis with a focus on local needs identified by the community in collaboration with state and local health officials. A second hearing is required to receive input on a proposed CDBG-CV Program application.

Motion:

I move that the Board schedules a public hearing on October 5, 2020 at 5:30pm for citizens to provide input to the County to make an application to CDBG-CV program.

Hendersonville High School Telecom, Intercom, Security, and Access Control Proposal from Haynes Technologies - pulled for discussion and approved

Approval of proposals from Haynes Technologies which was publicly advertised and bid for the New Hendersonville High School Capital Project inclusive of data cabling, intercom, security cameras and access control for \$803,870.00 plus the cost of the payment and performance bond.

The original bid date for proposals per the RFP was July 23, 2020, at which time only two bid/proposal packages were received. Per state statute for projects exceeding expected cost of over 500K, there must be a minimum of three bids, the project was rebid on August 21, 2020. No additional bids were received at the rebid, and per state statute the project can be awarded to the lowest responsive bidder, regardless of the number of bids. The lowest responsive bidder was Haynes Technologies.

This bid package is part of the Furniture, Fixtures, and Equipment portion of the approved overall HHS project budget and is within the estimated cost for this specific portion of the projected FFE cost.

Superintendent Bo Caldwell is good with the project as planned, and the mobile charging ports.

David Berry will bring back costs for alternative charging methods, ports, carts, and other aspects to the October 5, 2020 meeting for Board review.

I move that the board approves the Haynes Technologies proposal as submitted for the New Hendersonville High School Project

CONSTRUCTION PROJECT UPDATE

David Berry provided the Board of Commissioners with an update on the following construction projects around Henderson County. This monthly report is a review of the scope and statuses of assigned construction management responsibilities and includes specific updates regarding County funded construction activities.

Hendersonville High School

Masonry renovation work continues on the Stillwell building. On-site storm drain infrastructure and a great deal of earthmoving has been accomplished on the old Boyd side of the property to bring down the grade. The earthmoving was scheduled sooner to accommodate parking for subcontractors with school reopening and the need for student parking. Concrete, block masonry, concrete slab work and metal stud work continue in various scheduled areas, as is electrical, HVAC ductwork, and fire sprinkler work in the now enclosed building areas. Renovation continues to the Gym and additional steel erection has begun in areas south of where the newly constructed building portions are already standing.

Blue Ridge Community College

Staff continues to work with Architect Clerk Nexsen and BRCC on all Furniture, Fixtures & Equipment components for the projects including but not limited to furniture requirements, building security components, data cabling & technology need, AV equipment, intercom & phone systems. The FF&E components though not part of the construction budget, are a part and included in the overall project budget and \$1,100,000 of the overall \$23,400,000 project. At some point after the project is bid (November-December) and the gross maximum price is established (January) and approved, staff will begin the RFP process. The estimated construction duration is 16 months running February 2021 through June 2022.

95 Holding Cell

The Architectural plans for this project have been completed but await approval to proceed. The estimated cost is in the \$75,000 to \$85,000 range.

Flat Rock and Rugby HVAC upgrades

This project continues, however, classroom space at both schools has been made ready for occupancy. Some ceiling work and replacement tiles in hallways remain to be completed. The rooftop chillers are scheduled to come on-line in the fall when cooling is not mandatory.

Edneyville Library

Clark Nexsen has submitted a cost proposal for the required work, and staff will begin moving forward with plans, bidding, approval and construction. The project includes closing up the screened in porch area which will require shoring up the floor system, underpinning, electrical, HVAC and finishes.

Animal Shelter roof

The roof system is a combination of shingled sloped roofs and membrane flat roofs. REI has assessed the condition and will provide pricing for the design of the best system repairs and replacements, followed by bidding of the project, with a \$83,000 budget.

Overflow Human Services parking lot

This project has now become a priority. McGill and Associates have completed the plan and it has been approved by the City, with a minor change in regard to a storm drainage discharge location. We just received the City's final approval and the project can now go out to bid. The estimated cost of the project is \$89,500.

Showers at the Activity Center

Assessment of this project has just begun and will require coating of the masonry showers and floors, restroom floors, and new plumbing fixtures and accessories. It is budgeted at \$52,000.

HCPS and BRCC maintenance, repair, Technology, and security issues are on hold due to budget restrictions.

BROADBAND AVAILABILITY

The Board discussed Broadband availability in the County.

Commissioner McCall noted with changes this year, we have had to live with needs normally not necessary with schooling from home. She is concerned about areas that do not have sufficient service, and Broadband is needed. This was one of the goals for the North Carolina Association of County Commissioners last year, and she feels it should be included again this year, as it doesn't seem we have moved forward. A definitive goal is needed, and we should put together a committee to set the goals.

John Mitchell stated the 2020 Comp Plan does not include a Broadband component. Technology has changed drastically. We have been working with Land-of-Sky and other entities, but the County does not own a Broadband system or are we a provider, we can only entice providers.

Superintendent Bo Caldwell shared that over 2,000 kids (17%) do not have internet. The school system has been supplying WIFI for them. Roughly 30% of the students wish to continue class virtually.

TRANSPORTATION PROJECTS UPDATE - pulled and tabled to a future agenda

NCACC LEGISLATIVE GOALS

Commissioner McCall made the motion that the Board have staff work with her on goals and authorize submission to NCACC. All voted in favor and the motion carried.

COUNTY MANAGERS REPORT

Steve Wyatt noted we are expecting tremendous rain from the effects of the tropical storm tomorrow.

Steve Wyatt thanked the Board of Commissioners and public for the concern, support and compassion that we have all seen, heard and felt over the last, less than a week, but it seems much longer than that, with the tragedy felt here in this community with the senseless, tragic death of a fine young man, Deputy Ryan Hendrix. Mr. Wyatt knew him well enough to speak to him and joke around with him, and he had a good sense of humor. Arrangements are still being made as of this morning and in observance of his passing, his sacrifice and his service, to all of us and his family's sacrifice, Mr. Wyatt would like to close the County buildings and operations in honor of Deputy Ryan Hendrix, at noon on Friday to allow County folks to participate as they might in the services. Due to capacity issues there will be remote locations to view the service, and we plan on having the feed in the Courtroom on the projection screen for those who will be doing social distancing and taking precautions and would like to participate in the service remotely. As a team that works together it will be made available via livestream at 2:00 p.m.

Chairman Pro-Tempore Edney requested a future agenda item for discussion of memorials and tributes.

The Board has scheduled the Public Hearing for the Asphalt plant for October 1, 2020 at 6:00 p.m. at Blue Ridge Community College. Commissioned Edney will be attending virtually.
