RESOLUTION OF NATIONAL PUBLIC HEALTH WEEK IN HENDERSON COUNTY

WHEREAS, the week of April 7 - 13, 2025, is National Public Health Week;

WHEREAS, this year is the 30th anniversary of celebrating National Public Health Week, and in the past 30 years significant strides have been made in public health, including the following public health successes:

- Significant progress in controlling infectious diseases include a 30% reduction from 2001 to 2010 in reported U.S. tuberculosis cases, a 58% decline from 2001 to 2009 in associated blood stream infections, and the capacity to identify contaminated foods rapidly and accurately to prevent further spread;
- Smoking rates, which were as high as 25.5% among U.S. adults in 1994, have now fallen to 11.4 % due to comprehensive smoke-free policies, public awareness campaigns, and taxation of tobacco products;
- Childhood mortality, which was at a rate of 13.8 deaths per 1,000 live births in 1994, has now fallen to 5.4 deaths per 1,000 live births due to vaccines, better healthcare access and nutrition;
- Mental health awareness and treatment, with 40% of people with mental health conditions being untreated in 1994, has progressed with increased awareness, parity laws and integration into primary care, which have expanded access to mental health services and reduced treatment gaps;
- Lead poisoning, with 4.4% of U.S. children having elevated blood lead levels in 1994, has now fallen to less than 0.5% due to policies banning leaded gasoline and reducing lead in paint, pipes, and water systems.

WHEREAS, public health professionals help communities prevent, prepare for, mitigate, and recover from the impact of health threats including disease outbreaks and natural disasters;

WHEREAS, public health organizations use National Public Health Week to educate public policymakers, public health professionals and the public on issues that are important to improving the health of the people of the United States;

WHEREAS, efforts to adequately support public health and the prevention of disease and injury can promote a health system focused on treating illness to a health system focused on promoting wellness;

WHEREAS, Henderson County exceeds both national and state averages for health outcomes, according to County Health Rankings.

NOW, THEREFORE, BE IT RESOLVED, that the Henderson County Board of Commissioners do hereby recognize National Public Health Week in Henderson County, and applaud the efforts of public health professionals, community organizations, and individuals in Henderson County working to prevent disease and improve health outcomes.

Adopted this the 7th day of April 2025.

WILLIAM LAPSLEY, CHAIRMAN
HENDERSON COUNTY BOARD OF COMMISSIONERS

ATTEST:

DENISA A. LAUFFER, CLERK TO THE BOARD
