Edneyville Plan Implementation – Commercial and Industrial Zoning Map Recommendations – Matt Cable and Autumn Radcliff. Mr. Cable gave a PowerPoint presentation regarding the commercial and industrial zoning map recommendations made by the Edneyville Community Committee. He stated that the proposed nonresidential zoning changes include approximately 100 parcels, with a total of 350 acres. Also, he mentioned a tract made up of 16 parcels and totaling approximately 387 acres that the Committee did not want to recommend immediately, but recommended as a possible future industrial site.

He said the proposal is to expand Local Commercial Zoning in the following areas:

- Fruitland Road/US Highway 64 East (Apple Valley Travel Park) – 6 parcels, 18.23 total acreage - (presently zoned R1 and R2R; current use is commercial, residential and religious)

Proposed Local Commercial and Community Commercial:

- US Highway 64 East and S. Mills Gap Road – 29 parcels, 51.78 acres (Local Commercial to Community Commercial) and 7.43 acres - (from R2R and expand Local Commercial; current use is commercial, residential, governmental and vacant)
- US Highway 64 East at Gilliam Mountain Road – 6 parcels, 5.48 acres (R2R to Local Commercial; current use is commercial, industrial, residential and vacant). This property has split zoning (R2R and Local Commercial) with the proposal; it would expand Local Commercial zoning.

Board members had concerns regarding traffic at the intersection of Fruitland and Gilliam Road for the proposal of Office Institutional and Local Commercial zoning. Mr. Cable indicated that traffic count studies are used for determining requested zoning. Staff and Committee members justified the area between Cloud Nine and Jaymar Travel Park for the proposed expansion of Local Commercial zoning stating that the area is suitable for small local business and local commercial development.
